Environmental, Social and Governance (ESG) Policy.

The Aluminium Company of Egypt (Egyptalum) is an Egyptian governmental owned business and responsible management is firmly anchored in our company policy.

The Aluminum Company of Egypt (Egyptalum) , sustainability is a core value of our company self-image.

One of the goals of the Egyptalum is to continuously increase the sustainability of aluminium products through making aluminium more sustainable and efficient, as a raw material for products, and to open it up for use in new fields of application. This means using sustainable production processes, but also guaranteeing occupational health and safety, commitment to charitable causes, and promoting local procurement and long-term relationships with our staff, customers and suppliers.

Since the company was established in 1972, we have committed to the circular economy and recycling processes and can count ourselves among the pioneers of the middle east aluminium industry.

ESG Governance:

Egyptalum Sustainability Committee oversees our policies and operational controls for environmental, health, safety, and social risks, and is led by the Chairman of our Board of Directors and with our Sustainability Officer serving as Rapporteur and our Chief Operating managers as members. The Committee meets regularly (Twice a year) to set goals, budgets, and implementation timelines and monitor progress and result and continuous improvement suggestions.

In terms of governance, we are committed to promoting transparent, ethical business practices and ensuring effective corporate governance.

We have set up internal monitoring systems to ensure that we comply with all relevant laws and regulations and meet our obligations to our staff, customers and the community.

In terms of the environment, we are committed to promoting sustainable production processes and ensuring the protection of the environment. We rely on renewable energy sources and are constantly working to minimize our energy and resource consumption. We also strive to reduce waste and emissions through recycling, reuse and technical improvement.

In terms of social issues, we are committed to promoting fair and safe working conditions and looking after our employees 'welfare. We are committed to an open and respectful workplace which promotes gender equality and diversity at work. We also support the communities where we operate, and take part in social initiatives and projects.
